

Autism Spectrum Disorders Online Resources

Autism Society of America

This organization provides parent support, advocacy, public awareness, research and information on Autism.

This is a good source for credible information about diagnosis and management of Autism.

AAP Healthy Children .Org

Autism spectrum disorder (ASD) affects about 1 in 54 children. The American Academy of Pediatrics (AAP) recommends that all children be screened for ASD at their 18- and 24-month well-child checkups. Research shows that starting an intervention program as soon as possible can improve outcomes for many children with autism.

Autism Speaks

Autism Speaks is dedicated to promoting solutions, across the spectrum and throughout the life span, for the needs of individuals with autism and their families. We do this through advocacy and support; increasing understanding and acceptance of people with autism; and advancing research into causes and better interventions for autism spectrum disorder and related conditions.
